

Senior Manager, Environmental Services

Toronto Port Lands Company (“TPLC”) is currently hiring a Senior Manager, Environmental Services. Reporting to the President and Chief Executive Officer, this role is focused on maximizing the ecological integrity and environmental quality of the Toronto Port Lands’ properties, to assist the corporation in its goal to lease and redevelop this 400-acre site.

The Senior Manager will be responsible for developing environmental management, remediation, and risk assessment solutions according to an approved budget and schedule. As a member of the management team, this role will provide strategic technical advice and information regarding changes in legislation to advise management in the implementation of long-term strategies related to the environmental condition of corporate properties.

The ideal candidate is a seasoned professional with 7+ years experience overseeing the remediation of brownfield sites within a development environment. The candidate will demonstrate a track record of sound leadership, with the ability build and sustain multi-level relationships within the organization; as well as with external parties including consultants, City Council, community groups, and managers of other City of Toronto departments. Additionally, the candidate should possess a keen understanding of policy and decision-making processes within the City of Toronto, and the Ministry of the Environment.

An educational background in planning or environmental science is preferred.

This is a full-time, permanent position with a competitive compensation package.

Interested parties should reply in confidence by February 14, 2012, submitting a cover letter and resume to:
